

JOSHUA JALANDONI

Bacolod City, Philippines | Contact details available on request

PROFESSIONAL SUMMARY

Operations and quality specialist working in AI operations, data annotation, and web development. Experienced in managing high-volume conversational channels, running structured quality and linguistic reviews, and maintaining data accuracy under tight deadlines. Background in behavioral psychology, with professional English and native Tagalog. Currently working as a Claude Operator on live AI systems while building websites and automations for small businesses.

CORE COMPETENCIES

- **AI & Data Operations:** Data annotation, content review, model evaluation, prompt and output verification
- **Quality Assurance:** Structured verification sweeps, data-integrity checks, version audits, pattern recognition
- **Web & Automation:** HTML, CSS, JavaScript, React, n8n, Claude API, OpenAI API, Gemini API, Vercel, Git
- **Linguistic Skills:** Semantic analysis, contextual verification, English/Tagalog localization

PROFESSIONAL EXPERIENCE

Claude Operator – Lion Sales Funnels

July 2022 – Present

- Currently working with Lion Sales Funnels on QA and delivery for live AI systems.
- Run structured verification sweeps and cross-check AI-generated output against source records.
- Perform version audits, timestamp and data-integrity checks, and comparison work between prompt versions and their outputs.
- Report findings with exact identifiers rather than pass/fail summaries.

Freelance Web Designer & Developer

2022 – Present

- Design and build websites and automations for small businesses in the US and the Philippines.
- Four client sites shipped across restaurants, service companies, and creators.

Digital Engagement & Operations Strategist

Aug 2024 – June 2026

- Managed and optimized high-volume, real-time conversational channels for user retention and audience growth.
- Tracked engagement datasets and monitored performance timelines to refine communication workflows.
- Conducted quality and linguistic reviews on digital correspondence for brand alignment and contextual accuracy.

Game Advisor & Quality Reviewer – Roblox

Jul 2024 – Aug 2024

- Evaluated user-generated content and platform data against compliance and quality standards.
- Provided supportive feedback and performance reviews on community submissions.

Virtual Assistant & Content Specialist – VA House PH

Jan 2020 – Mar 2024

- Managed multi-channel digital assets and structured content tracking pipelines for distributed businesses.
- Applied agile principles to daily workflows, ensuring data accuracy across proactive campaigns.

Customer Data & Support Representative – American Express

Jun 2020 – Jul 2022

- Reviewed and processed sensitive financial profiles and corporate portfolio data with zero margin for error.
- Maintained strict compliance and data security requirements while resolving complex inquiries.

Customer Service Specialist – Capital One

Mar 2019 – Jun 2020

- Managed high-volume data queues using structured problem-solving and pattern recognition.

- Consistently exceeded benchmarks for quality assurance, accuracy, and resolution time.
